WILD NEPHIN
Co. Mayo

Over the next twenty years, over 11,000 hectares of forest, lake and bogland in the heart of the Nephin Beg Range will be restored to a wild state by Coillte, in association with the National Parks and Wildlife Service and Mayo County Council. Apart from protecting this uniquely wild and valuable landscape, Wild Nephin will enhance the nature conservation value of our forests, while also promoting recreation and Mayo's claim to be Ireland's Wild Capital.

Coillte. Trees are just the start of it.

Wild Nephin, Europe's newest wilderness.

Natural resources, responsibly managed.
